"I am a musician, a multi-instrumentalist to be exact, I mostly love piano and my silver vibraphone. I have fun and play with passion, I try to smile and forgive as much as possible to feel alive. Whether I wear jeans and T-shirt or jacket and tie, I never give up my bracelets, and it's also thanks to them that I can take you with me inside my intimate and strange dream, elegant and funny, crazy like a cartoon, where you will be spectators of my vision of reality. "
